

ASAP+

URGENT ORDER? GET NEXT-DAY DELIVERY.

Toro offers the best parts delivery program in the industry. If you need your order at your door the next day, take advantage of our cost-effective, next-day parts delivery service at UPS Standard Ground rates plus \$20. That's an average savings of \$20* in freight compared to UPS Next Day Air service. Simply call your customer service representative at **1-800-803-8676** for ASAP+ delivery on your next order.

UNPARALLELED AVAILABILITY

Toro's nearly 10-acre Wisconsin distribution center offers distributors fast access to over 100,000 parts, so you'll receive your order fast (usually within 24 hours). If your part is not in stock at the distributor, we'll ship it directly to you within 48 hours — because we know how important it is to keep you up and running.

* Freight savings vary by weight and shipping zone. Average savings for a 6-pound shipment is \$16 under UPS next day air retail. Delivery is reliant on freight carrier delivery times (service may not be available in all areas). Orders over 70 pounds will ship next day with full UPS retail charges.
